VOL. VII. NO. 298.

DECATUR, ILL., TUESDAY MORNING, NOV. 17, 1885.

## PUBLIC MATTERS.

Evidences That the Tariff Will Be the Leading Question in the Next Congress.

Disgruntled Steamship Companies Continue Their War on the Postmaster-General.

Success of Experiments with Oil on Heavy Seas—The Nicaraguan Canal—Work on the Message.

THE TARIFF.

WASHINGTON, Nov. 16.—From all quarters come the warnings of a tariff outbreak early in the session. Mr. Abram S. Hewitt has a tariff bill, but Representative Mills of Texas, one of the ablest men on the free traders, also has a tariff bill prepared, and will probably lead the phalanx in the place of Morrison.

NICARAGUAN CANAL.

WASHINGTON, Nov. 16.—The report of Civil-Engineer Menocal, United States navy, upon the Nicaraguan Canal route is made public. The proposed route extends from the harbor of Greytown, on the Caribbean Sea, to Britton on the Pacific. Its total length is 169.8 miles, of which 38.9 miles will be excavated canal and 130.92 miles navigation by Lake Nicaragua. It is estimated that the canal can be completed in six years, and will cost, including a contingent of twenty-five per cent added, \$4,043,697.

Navy Estimates.

WASHINGTON, Nov. 16.—Commodore D. B. Harmony, Chief of the Bureau of Yards and Docks, in his annual report, submits estimates from the commandants of the various navy yards for the fiscal year ending June 30, 1887, aggregating \$9,650,698. The estimates of the bureau itself aggregate only \$4,384,737.

PRESIDENT CLEVELAND'S SISTERS.

WASHINGTON, Nov. 16.—Miss Cleveland returned to Washington Saturday after an absence of several months. Her book on George Elliot has been so successful that her publishers have asked her to write another book, but she will not do so for a year or two. Mrs. Hoyt will go to her home in New York next week and return here in January to assist Miss Cleveland in dispensing the hospitalities of the White House.

JACK IN PROGRESS ON THE MESSAGE.

WASHINGTON, Nov. 16.—It is understood that the President has made considerable progress with his annual message to Congress. Part of it, it is said, has been copied on a typewriter and revised, and in a week or ten days' time commercial relations with foreign countries, the steamship subsidy question, and new vessels for the navy are questions to which considerable space in it will be devoted.

ON THE WATERS.

WASHINGTON, Nov. 16.—Commander Bartle, Chief of the United States Hydrographic Office, in his annual report says: The value of the use of oil to smooth the breaking seas during gales of wind has been widely diffused, and the account of different experiences published monthly on the pilot charts, has been exceedingly interesting. Many who could not understand how a film of oil could be efficacious under such circumstances have been convinced of the fact that it is of valuable assistance during heavy gales. The dissemination of the reports of shipmasters who have owned the safety of their lives and cargoes to this agent have become too numerous and are too unanimous to be disregarded by the most conservative.

CONGRESS TO BE ASKED TO CENSURE VILAS.

WASHINGTON, Nov. 16.—The steamship companies which failed to secure the \$400,000 subsidy appropriated by the last Congress for carrying foreign mails are fomenting a scheme to introduce into both branches of Congress upon its assembling a resolution censuring Postmaster-General Vilas for his refusal to pay out his money by distribution. Senator Frye of Maine, is to present this resolution in the Senate. The action of Postmaster-General Vilas in this regard meets with the approval of the Administration and will be defended by many prominent Republicans as well as Democrats who opposed this subsidy in the Forty-eighth Congress.

INDIANS IN GOOD CONDITION.

WASHINGTON, Nov. 16.—Commissioner Atkins, of the Indian Office, returned to this city Saturday. He visited nearly every tribe of Indians in Indian Territory, Arizona and New Mexico and found them in most cases in good condition and contented.

IMPORTANT TO HOUSEHOLD SETTLERS.

WASHINGTON, Nov. 16.—It has been customary for the General Land Office to allow a man who has taken a quarter-section of land under the Pre-emption act to take another quarter-section under the Homestead act, and thus get three hundred and twenty acres of the public domain for two hundred dollars, plus the fees for the two entries. A case has recently come before Commissioner Sparks where a man in the Devil's Lake District, Dakota, took 130 acres under the Pre-emption law, and at the expiration of the statutory six months after making the latter entry he committed it for cash. A commuted homestead is precisely the same thing as a pre-emption, and the Commissioner has decided that this man's homestead entry, in consequence of his attempt to commit it, is invalid. The decision does not go so far as to say that a man can not enjoy the benefits of both the Homestead and Pre-emption laws if he perfects his homestead title by five years' residence instead of by cash commutation; but it is understood that the Commissioner regards the Homestead act as having been passed as a substitute, or at least an alternative for the Pre-emption act, and that a man can not enjoy the benefits of both acts under any circumstances, and a decision to that effect will probably be promulgated before long.

A World's Fair for Chicago.

CHICAGO, Nov. 16.—The stockholders of the Inter-State Industrial Exposition Association held a meeting Saturday and decided that it was the sense of the meeting that a great world's fair be held in Chicago in the year 1892, the four-hundredth anniversary of the landing of Columbus in America. It was instructed that the Executive Committee be given the property of holding an India exhibition, either the coming year or the next year thereafter, with power to act.

Mr. Stanford's Gift to California.

SAN FRANCISCO, Cal., Nov. 16.—Ex-Senator Stanford presented to the trustees of the proposed Leland Stanford, Jr., University Saturday the title deed to the 57,000 acres comprised in the Gridley, Vina and Palo Alto farms, which are valued at \$4,000,000.

## A CALL FOR AID.

The Grand Jury at Galveston Issue an Appeal to the Country for Help for the Sufferers from the Late Fire—A Statement of the Destination Caused.

GALVESTON, Nov. 16.—The total amount thus far subscribed to the fund for the relief of sufferers from the great fire is \$80,000. C. P. Huntington has given \$5,000 and several other subscriptions ranging from \$1,000 to \$500 have been received. Many generous private gifts have been reported.

The Grand Jury, which has been in session several days, took action touching the results and extent of the fire. It promulgated the following appeal and statement of facts:

GRAND JURY ROOM, GALVESTON, Nov. 14.—To the People of the United States: We, the Grand Jury of the county of Galveston, in session, beg leave to make the following statement in regard to the ravages of the holocaust in this city the morning of the 11th instant:

We find that the entire improvements on forty-four blocks were burned, and that damages have been sustained on five additional blocks. The total amount of the 49 blocks totally destroyed is less than \$1,000,000. The damage more or less, and of this number \$300,000 are damaged seriously. The property reported as very poor, having lost everything, are 2,500 household furniture pieces, being all the have in this world except

The Hotel Committee of citizens have fully responded, probably doing all in their power, but they are not in a fit state to meet all demands necessary to prevent absolute suffering.

We therefore ask that the amount to the country of the great suffering would soon be warred to. We also call upon all to the object suffering, which can be put right at a small expense, with out fear of contradiction, and aver that those to are three times as great as those to be had after the fire. This loss, the loss of home, the loss of property, the loss of their household and kitchen furniture and clothing, the large amount of clothing and bedding, the day labor and having a winter amount of work, and the loss of the benefit of the behalf of others; absolutely destroying what we reluctantly make this appeal to those who may desire to aid in the cause of our charity.

## MACKIN MUST GO.

The Illinois Supreme Court Refuses to Grant the "Fine-Worker" a New Trial—He Will Be Taken to Prison at Once.

CHICAGO, Nov. 16.—The Illinois Supreme Court has refused the writ of error asked for by the attorneys of Joseph C. Mackin, and holds that Mackin's conviction for perjury was secured according to law.

Mackin will be taken to the penitentiary in a day or two. The opinion was rendered by Justice Scott, and filed with the clerk of the Supreme Court at Ottawa. Mackin's counsel will petition for a re-hearing.

DEATH OF A MERCHANT PRINCE.

Horace R. Claffin Suddenly Stricken with Paralysis at Fordham, N. Y.

NEW YORK, Nov. 16.—Mr. Horace B. Claffin, the well-known merchant, died at his country seat at Fordham, N. Y., Saturday afternoon. Thursday evening while apparently in good health, he suddenly fell to the floor, stricken with paralysis. Friday he rested easily, but a relapse occurred Saturday morning, and he died shortly after three o'clock.

King Milan has declared war against us, and has ordered the Servian army to invade Bulgaria.

He was the first to attack, and to assist us, wish to ruin our country. Show your courage now, and defend your mothers, wives, sisters and homes! Pursue and annihilate him, and his army, and his victory. Let "Forward" be your battle cry, and victory, and may God aid us and grant us victory.

Troops are being hurried forward to the defense of Sofia and the frontier. Trains filled with soldiers singing patriotic songs are constantly leaving for the front. The people throughout the country are eager for the contest. The troops are gratified at engaging in warfare for the first time without a single foreigner in their ranks. All soldiers of the National Guard have been summoned. A steamer has arrived at Rustchuk with 5,000,000 cartridges, which are now being unloaded.

SMOTHERED IN A SHAFT.

Ten Men Perish in the Bull-Domingo Mine at Silver Cliff, Col.

SILVER CLIFF, Col., Nov. 16.—The fire at the shaft-house of the Bull-Domingo mine, and the consequent explosion of giant cartridges which dismanted the hoisting machinery, caused the death of ten men who were at work below. Indignant citizens threaten to lynch the superintendent for his negligence in keeping the cartridges in the shaft-house, as the men could have been saved had the machinery remained intact.

The removal of dead miners from the 550-foot level was begun at six o'clock Saturday night, the last being brought to the surface about midnight. Robert McGregor and Tom Armstrong alternated in going down the shaft. A rope was attached to pulleys to let the brave men down. A corpse was brought to the surface, then a guide, standing with his feet in the loop of the rope, both arms around the dead body, was brought to the surface by the steady pull of scores of men. The victim was probably suffocated within an hour, being stiff and cold when found, with his arms coiled over their faces. Westfall and Laube left short letters, the former to his sister, assigning his insurance in the A. O. U. W. to her and two orphan nieces. The latter wrote to his parents and wife. The caving in of the shaft left a cavity of more than fifty tons of debris, hence a delay of thirty hours in the recovery of the bodies.

Maxwell Pleads Not Guilty.

St. Louis, Mo., Nov. 16.—Hugh M. Brooks, alias Walter H. Lennox Maxwell, was arraigned Saturday for the Preller murder, and pleaded not guilty. During the reading of the indictment, which consisted of six legal-cap pages full of type-writing, Brooks paid and nervously bit his lips, but did not otherwise betray emotion. The court-room was crowded. There are three counts in the indictment. One charges Brooks with having strangled Preller after first chloroforming him, the second charges him with having poisoned his victim, and the third charges that Brooks committed the crime "by some means, devices, instruments and weapons."

The Tobacco Crop Ruined.

EVANSVILLE, Ind., Nov. 16.—Reports received from Kentucky and Southern Illinois state that the cyclone which visited those sections last week completely ruined the tobacco crop, blowing trees down and the rain which followed completed the ruin. The loss will reach thousands of dollars, and farmers will be seriously crippled.

## THE FIRST BATTLE.

The Servian Army Takes Up Its March and Crosses Into Bulgarian Territory.

An Engagement in Which Prince Alexander's Troops Are Worsted, Losing Thirty-Four Men.

King Milan's Pretext for Beginning Hostilities—Bulgaria's Course—Attitude of Other Powers.

## THE FIGHT BEGINS.

LONDON, Nov. 16.—The Servian army began a general advance toward Sofia late Friday night, under the personal command of King Milan. The army is in three divisions, General Hovatovitch commanding the left wing, General Leshyana the right, and the King the center. At one o'clock Saturday morning the three divisions crossed the frontier at Tsaribrod, Kilkura and Bregovo. No resistance was encountered, until Trn was taken on the Vlasina road, just south of Pirot. Here a detachment of Bulgarians had stationed themselves and offered battle. A sharp contest ensued, in which the Bulgarians were put to flight at all points. Ten Bulgarians were killed and a large number of Servians. Immediately after the battle King Milan's forces took possession of the important heights just behind Trn.

Six battalions of Servian infantry, two batteries of artillery, and two squadrons of cavalry yesterday attacked two battalions of regular and irregular Bulgarian troops. The Bulgarians lost thirty-four killed and wounded.

The Servian troops, under Colonel Michikovich, have occupied Sariobrod, sustaining small loss. Fifty Bulgarians were captured and sent to the fortress at Belgrade.

It is reported that the Servians have captured Adlichevitz. The report current Saturday night that they had captured Trn is refuted. It is said both places were taken after a brief hand-to-hand struggle.

The entire Servian army is now in Bulgarian territory, and is marching with great enthusiasm. The roads are covered deeply with snow, which retarded progress. The division now near Pirot is marching directly on Sofia, which it expects to reach by November 22. This division will engage the Bulgarian army in the first decisive contest, which is likely to take place as soon as the Servian troops reach the rocky gorge of the Dragoman pass, where a number of Bulgarian battalions have been concentrated.

Great excitement prevails in all the chief cities of Eastern Roumania and Bulgaria, and a feverish activity is manifested in the preparations which are making to repel the invading army. At Sofia Saturday Prince Alexander issued a proclamation to the officers and men of his army, in which he said:

King Milan has declared war against us, and has ordered the Servian army to invade Bulgaria. We wish to ruin our country. Show your courage now, and defend your mothers, wives, sisters and homes! Pursue and annihilate him, and his army, and his victory. Let "Forward" be your battle cry, and victory, and may God aid us and grant us victory.

Troops are being hurried forward to the defense of Sofia and the frontier. Trains filled with soldiers singing patriotic songs are constantly leaving for the front. The people throughout the country are eager for the contest. The troops are gratified at engaging in warfare for the first time without a single foreigner in their ranks. All soldiers of the National Guard have been summoned. A steamer has arrived at Rustchuk with 5,000,000 cartridges, which are now being unloaded.

NEW YORK, Nov. 16.—King Milan's circular to the Powers informing them of the declaration of war against Bulgaria was issued Saturday. It gives the reason for a resort to hostilities the fact that Bulgarian troops attacked a position held by the Moravia division of the Servian army in their own territory opposite the Bulgarian frontier.

Prince Alexander indignantly denies that his troops were guilty of any violation of the frontier, and demands that the Servians are solely responsible for the recent events on the boundary. He has also sent a circular to the Powers in which he complains that the Servian agents in Bulgaria withheld for eight hours the official proclamation of his sovereign's proclamation of war.

The Servian King has also issued a proclamation, in which he says that he will not allow Bulgaria to distract the balance of power in the Balkans. He then refers to the effect that the Servians will defend their frontier by force, and that the attacks by the Bulgarians are the result of the Bulgarian's own aggression.

It is now proposed by the leaders of the movement that an elaborated petition, rehearsing all the arguments in favor of the proposed law, be prepared for the information of the Congressional committee in the matter in which the law was eventually vindicated.

ROBBED HARD WORKING MEN.

NEW YORK, Nov. 16.—The Chamber of Commerce, Board of Trade and Transportation Martineau Association and several other financial and commercial organizations of this city, are making arrangements for the purpose of sending a combined delegation to Washington next winter to urge Congress to pass a national bankruptcy law.

It is now proposed by the leaders of the movement that an elaborated petition, rehearsing all the arguments in favor of the proposed law, be prepared for the information of the Congressional committee in the matter in which the law was eventually vindicated.

I can not suffer these international provocations, and I therefore adopt the policy of open hostility, which has been forced upon me by the conduct of the Servian Government.

# THE REVIEW

BY JACK & MIZE.

Louis Riel, the half breed rebel leader of the northwest, was hanged yesterday.

The object of the superintendents' convention now in session in this city is the discussion of plans of practical work and of points in the school law that are either not understood or not enforced. The object is a good one. The meeting is to the superintendents what the institute is to the teachers. It affords an opportunity for the best and most experienced to lend a helping hand to those who lack knowledge and experience. And even the poorest superintendent if he is in earnest, can add something to the general fund that will be of benefit to all. Superintendent Raab is doing a good work in holding these meetings.

## A MORNING MARRIAGE.

Mr. Oscar Spaulding and Miss Alice Freeman Happily Mated.

The wedding nuptials of Mr. Oscar F. Spaulding and Miss Alice Freeman took place yesterday morning at the home of the bride's parents, on West Prairie street, and were witnessed by many friends and relatives of the couple. The leading society people graced the joyous occasion with their presence and enjoyed the pleasures usually attending weddings. The ceremony was performed at ten o'clock, in the large parlor which was profusely and attractively decorated. The bay window was tastefully set off with ivy and evergreen, with a gate of the last named extending across the front. The bride and groom were preceded by little Ned Freeman and Madge Hayes, who opened the gates for them to pass through. The attendants were Mr. and Mrs. John Freeman, parents of the bride, and Mr. and Mrs. James Freeman, uncle and aunt of the bride. The attending couples were married on November 16th, the former in 1859 and the latter in 1865. When the party had taken their position Rev. Dr. Vosburgh advanced and in a few words made the groom and bride man and wife. At the conclusion of the brief ceremony the orchestra under the direction of Prof. Bill commenced a charming air, while the guests pressed forward and extended their congratulations. The bride was attired in a handsome traveling dress, and the groom wore the customary black. They were made the recipients of innumerable beautiful and costly presents. An elegant wedding breakfast was served, and was heartily enjoyed by all. Among the guests present from abroad were Benjamin Freeman and Miss Fannie Dale, of Boston; Mrs. Morton and Mrs. McAllister, of Jacksonville; Mr. and Mrs. W. E. Hayward, of Pana; Mr. and Mrs. Charles Wincup, of Peoria; Mr. and Mrs. H. F. Day and Mrs. Dr. Hoxie, of Moawequa.

His chosen wife is the only daughter of Mr. and Mrs. John Freeman, and her amiable disposition has won her a place in the hearts of all who know her. The couple start on their married life under the most auspicious circumstances, and with the well wishes of all acquaintances. The Review joins with the rest most cordially.

General Manager Talmage's car was turned out of the shops at this point yesterday, after having been improved in several particulars, the principal one being the addition of an electric bell.

## Superintendents' Convocation

A district convention of superintendents focused the attention of the superintendents' office in the city yesterday. It was called to order by State Superintendent Raab. The object of the convention is the discussion of topics relating to the every day work of superintendents. The superintendents in attendance are:

Geo. R. Shawhan, Champaign county.

Jos. R. Burress, Douglas.

Francis Boyd, Christian.

B. C. Allensworth, Tazewell.

John Jimison, Adams.

John A. Miller, McLean.

W. B. Marschutz, Shelby.

A. J. Smith, Sangamon.

D. T. Stewart, Edgar.

B. F. Poadro, Monroe.

John Trainer, Macou.

J. Arnold Jasper.

B. C. Miller, Cumberland.

J. D. Benedict, Vermilion.

G. A. Burgess, Piatt.

F. G. Lohman, Ford.

Deputy Superintendent of Public Instruction Pilbury, of Springfield, and Prof. Metcalf, of Normal, are also in attendance.

The subject of school supervision, or the practical work of superintendents in the field, was the principal one discussed during the afternoon and evening. The most practical talks were made by Mr. Smith of Sangamon and Mr. Jimison of Adams. They are enthusiasts in their work, and evidently close observers also. Mr. Smith would judge of a teacher's qualifications by the appearance of the house and grounds; by the condition of the floor, blackboards and text-books, and the appearance of the classes when called upon to recite. Other superintendents brought out points of practical value. In the discussion a great deal of time was spent in determining whether the teacher should knock at the school room door, or go in on the sly, and we believe the question is not yet decided.

In the evening the question of "free text books" was discussed and referred to the annual meeting of county superintendents of the state. In the discussion of the subject, Mr. Benedict of Vermilion, took the correct view—that if books and all school supplies are free, no ownership in them, that the pupils will not appreciate their value or care for them. It would be a source of great leakage to the school funds of the different districts of the state.

The convention will remain in session to-day.

## Attractive.

Nothing so attractive as the new styles of carpet, wall decorations and curtains, at Abel & Locke's. n17dt

The Quincy Journal is kept in a state of nervousness on account of the city fathers allowing cattle, hogs and geese to run at large. Decatur has no complaints to offer. We are too utterly metropolitan, you know, to allow any such nuisances.

## Something New

Having made the necessary arrangements, I now keep feed of all kinds at my wood and coal yards. Up town office at Lehman & Bolen's Telephone at yards, 139. Order of me your feed, coal and wood.—Geo. W. Ehrhart. n17dt

Lon Brockway is busily engaged in leveling and recovering Thomas Andrews' billiard and pool tables, so that they will be in keeping with other costly improvements going on there.

## A Damaging Runaway.

North Church street was the scene of an exciting runaway yesterday noon which caused all who saw it to hold their breath with fear and anxiety for the safety of those who occupied the wagon. Mrs. Green, a widow, and Mr. Sweet and a young man named Adolph Pelton had driven from Prairie Home with a wagon load of apples. When near the Church street school, the children who had just been dismissed for the noon hour came out yelling and laughing. The team took fright and wheeling around came dashing down the street, a portion of the frenzied dash being over the brick sidewalk, with the wagon striking the fence and trees. Mrs. Sweet fell out rear J. G. Cloyd's residence. Pelton laid on to the lines until the wagon struck a large tree near D. C. Shockley's house with terrific force. Both Mr. and Mrs. Green were thrown to the ground, and one of the horses breaking loose continued on its wild career. The other animal broke its left hind leg by the collision. Both the ladies who had been in the wagon were taken to the home of Mr. J. G. Cloyd, where they rested for short time, after which they went to Mr. Hiram Johnson's residence on West Cerro Gordo street, they having been on their way there when the team started to run. Both were frightened and terribly shocked, but neither sustained serious injury. Pelton was also bruised up a little. The horse that broke its leg was put out of its misery by Officer Gus Hardy. He took a large sledge hammer and dealt it two heavy blows on the head.

## A Pretty Woman's Secret.

Year of discovery, when she resorts to false hair and dyes, is a source of constant anxiety to her. The very persons from whom she most desires to hide the waning of her charms are the ones most likely to make the discovery. But there is no room to doubt that she will not regain and retain all the beauty of her youth with pride in youth. Let her use AYER'S HAIR VIGOR, and, not only will her hair come to fall out, but a new growth will appear where the scalp has been denuded; and locks that are turning gray, or have actually grown white, will return to their pristine freshness and brilliance of color. AYER'S HAIR VIGOR cures.

### Heredity Baldness.

GEORGE MAYER, *Flatonia, Texas*, was bald at 23 years of age, as his ancestors had been for several generations. One bottle of HAIR VIGOR started a growth of soft, downy hair over his scalp, which soon became thick, long, and vigorous.

### Scalp Diseases.

Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and annoying sores, are all quickly cured by AYER'S HAIR VIGOR. Iterated HERBERT BOYD, *Minneapolis, Minn.*, of intolerable Itching of the Scalp; J. N. CARTER, *Mr. C. R. Ocoee, Va.*, of Scalp Itching; E. D. V. LOVELOCK, *Love-Locke, Ex-Confederate, Stores*; Miss BRASSER H. BENDIX, *Bethelton, W. Va.*, of Scalp Disease and Dandruff; J. C. C. of Scalp Disease of the roots of the hair, which, if neglected, may result in incurable baldness. It is readily cured by AYER'S HAIR VIGOR.

### A Toy Luxury.

AYER'S HAIR VIGOR has no equal. It is colorless, cleanly, delightfully perfumed, and has the effect of making the hair soft, pliant, and glossy.

## LOTS GIVEN AWAY!

## Palma Sola, Florida.

The paradise of invalids! The home of tropical climate unsurpassed. No frost! No extremes of heat or cold! No mud! No sand! High and dry! Plenty of pine! and the trees: fishing and hunting in America!

PALMA SOLA has the name of being the largest, most beautiful, and the best in the world. It is located on the Gulf of Mexico, about the mouth of the Manatee River. Already the iron horse is wending its way to Palma Sola, and soon the tourist will arrive at its doors—where he can get a meal to eat the day up.

Palma Sola possesses the largest store in Southern Florida with sawmill, furniture factory, packing houses, warehouses, churches, school, post office, telegraph office, and a large wharf at which ocean steamers arrive daily from Tampa.

WADDELL, JR., of "Long Branch," famous for his "Aunt Fannie," at Palma Sola, is the author of a new book on the creation of a winter resort. The prediction is safe one, based as it is on the natural advantages and attractions of the place, that he will make this the "LONG BRANCH" of FLORIDA, and the "Aunt Fannie" of the South.

With the completion of the railroad, this will be the terminus, and the direct route to Havana, Cuba. Lots will double and quadruple their price. Now is the time to buy.

Price—\$200 per lot. We want PALMA SOLA to keep booming, and as an inducement to the public and to thoroughbred applicants the extra cost of \$200 per acre lot ALTERNATELY as they come (no extra cost accepted) chartering applicants the extra cost of deed, transfer, etc., which will not exceed \$200. Applicants can send postal money order with application and money order will be sent. O. O. D. applicants must not be surprised at the return of their money, as being LIMITED the first one will be first served. Title perfect and will warranty deed for one year.
